September 19, 1959

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebraska

Dear Sir:

We are pleased to verify your report on the reception of Radio Station WKBH on September 16, 1959.

This station operates on 5000 Watts day and night with a two element directional array for the nighttime operation. The towers are of the self-supporting type 279 ft. high with a square base 20' on each side.

We are receiving a good many reports since the sky wave conditions have changed; two of the reports were from New Zealand.

Yours truly,

RADIO STATION WKBH

Alvin Leeman
Chief Engineer
